

## Introducing our fully interactive Indoor Treasure Hunt

Our Around the World treasure hunts are perfect for a morning or afternoon team building activity, or for winding down after that group conference. They are also ideal if you do not want to venture outside, especially when it is wet and cold outside! A great way to have some team bonding for a couple of hours with some competitive fun thrown in for good measure!

### The clever bit!

Written in house, our Around the World hunts are available as either Self Managed or Fully Managed Packages. Using tablets or smart phones, (Haewui or Samsung Galaxy Notes are provided per team if its a fully managed event). Your task is to virtually navigate to each country/location in your treasure hunt, accessing the huntfun hotspots and answering as many clues as possible. Working with your wanderlusting team mates, you have a range of clues to answer, challenges to complete and bonus tasks to carry out.

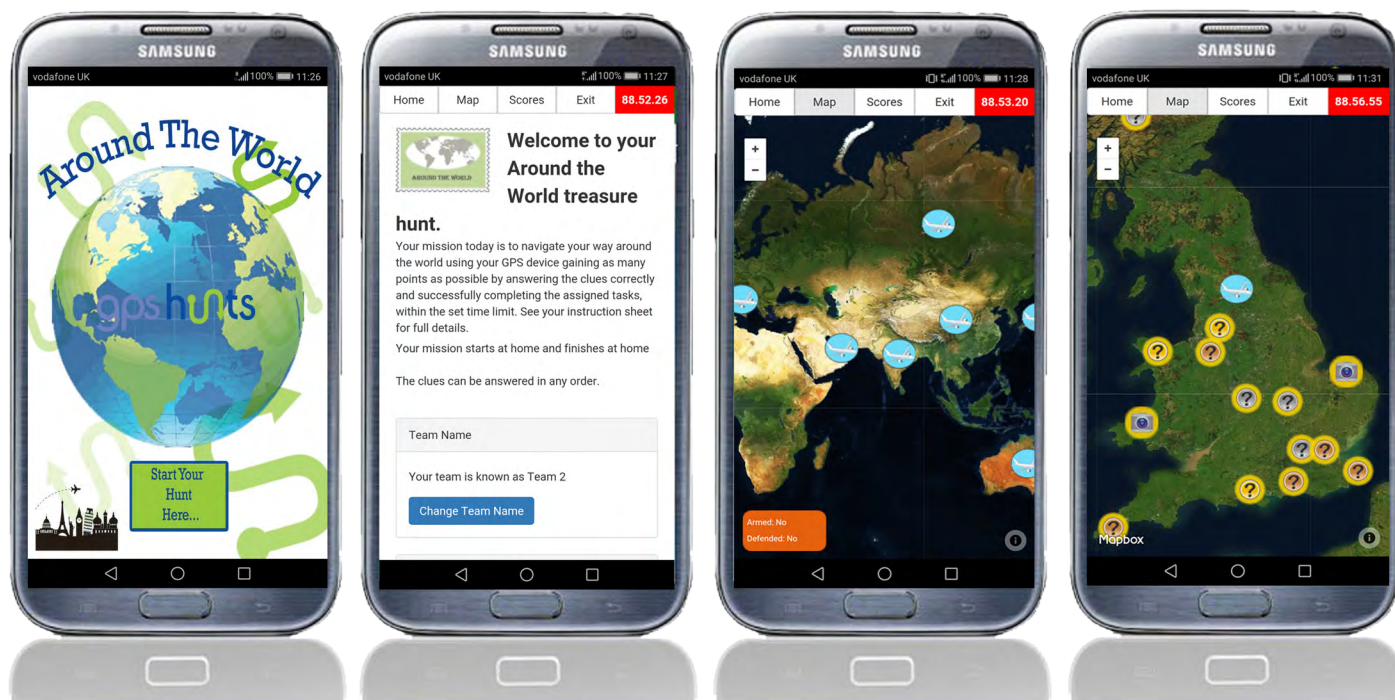

*The perfect team building activity for those wet & windy winter afternoons!*

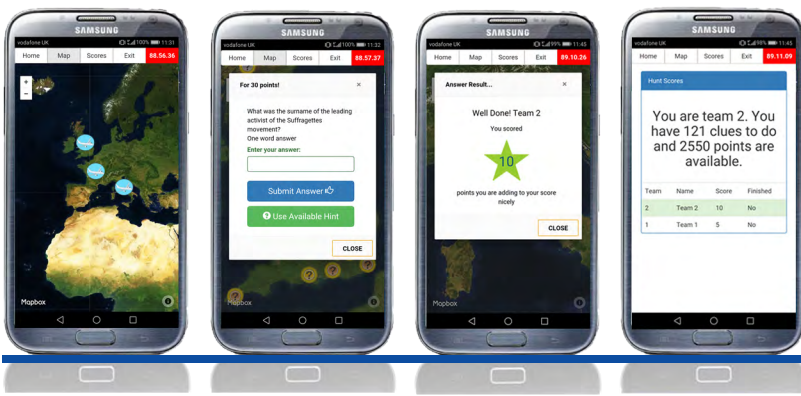

### Choose a theme...

Themes available include Around the World or Around the World Christmas.

### What it's all about!

The aim of our Around the World treasure hunt, is to use your device as your virtual passport, teams can travel the world without even having to leave the room! Scoring as many 'points' as possible in the allocated time having loads of fun on the way. The clock is ticking too so you are not just competing against the other teams you have to beat the clock! If you access a hint only half the 'points' available will be awarded! The variety of clue types and tasks will require input from the whole team.

## Fully Managed Around the World Packages...just for you!

We take care of everything!

We organise your Around the World Corporate Team building treasure hunt to meet your requirements, working alongside anything else you may have planned for the day.

We choose, with you, an appropriate venue for your event. We turn up on the day and run everything for you, ensuring that everything goes as smoothly as possible and most importantly it will leave you free to enjoy your Around the World Corporate Team building hunt with the rest of your colleagues.

We provide pre loaded android devices for each team to use whilst doing the treasure hunt. We provide all the hand-outs, explain to the teams how the treasure hunt works and set them all off on their virtual trip Around the World.

We check final scores at the end awarding certificates to the winning team.

*Answer the clues, complete the tasks and activities.*

*A real time scoreboard, so you can see how you and all the other teams are doing at any time!*

### In addition...

Want it all about you!? We can brand the treasure hunt up with your company logo! If you send us an image of your company logo, we can include this on the treasure hunt app, team hand out sheets, and also on the certificates!

Around The World

Fully Managed Around the World Hunts  
start at just £45.00 plus VAT per person\*
