

## Introducing our fully interactive Indoor Treasure Hunt

Our Around the World treasure hunts are perfect for a morning or afternoon team building activity, or for winding down after that group conference. They are also ideal if you do not want to venture outside, especially when it is wet and cold outside! A great way to have some team bonding for a couple of hours with some competitive fun thrown in for good measure!

### The clever bit!

Written in house, our Around the World hunts are available as either Self Managed or Fully Managed Packages. Using tablets or smart phones, (Haewui or Samsung Galaxy Notes are provided per team if its a fully managed event). Your task is to virtually navigate to each country/location in your treasure hunt, accessing the huntfun hotspots and answering as many clues as possible. Working with your wanderlusting team mates, you have a range of clues to answer, challenges to complete and bonus tasks to carry out.

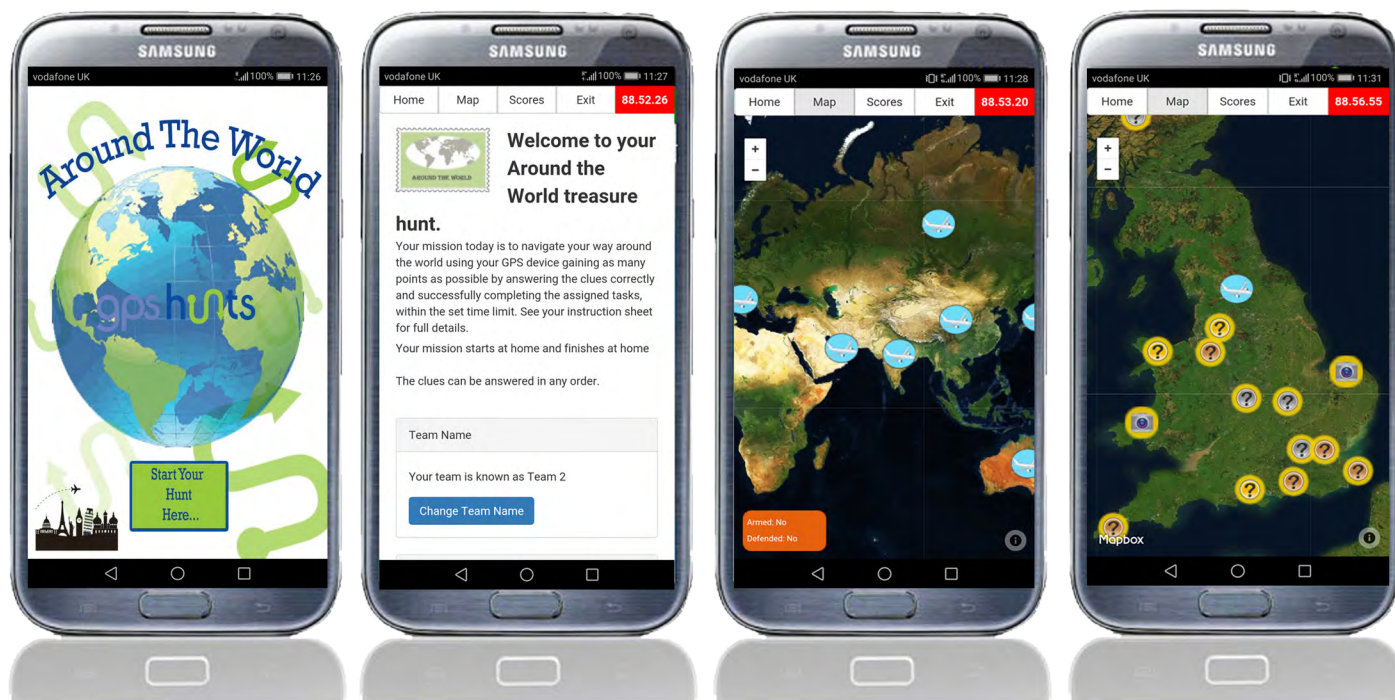

*The perfect team building activity for those wet & windy winter afternoons!*

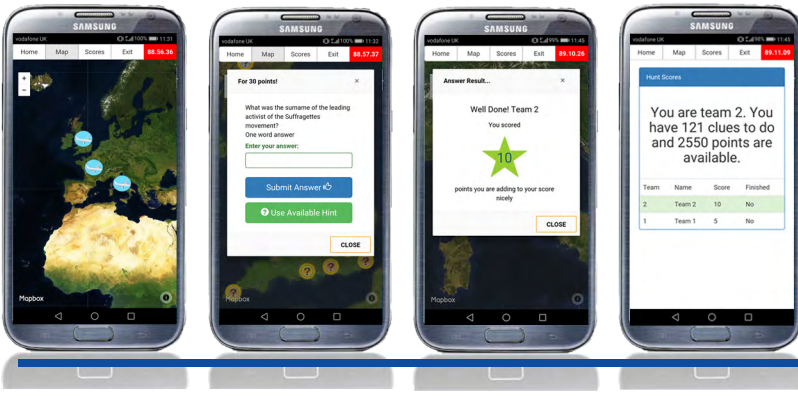

### Choose a theme...

Themes available include Around the World or Around the World Christmas.

### What it's all about!

The aim of our Around the World treasure hunt, is to use your device as your virtual passport, teams can travel the world without even having to leave the room! Scoring as many 'points' as possible in the allocated time having loads of fun on the way. The clock is ticking too so you are not just competing against the other teams you have to beat the clock! If you access a hint only half the 'points' available will be awarded! The variety of clue types and tasks will require input from the whole team.

## Self Managed Packages...

We send you links containing everything you need to run your Around the World Treasure hunt which include;

**Full Instruction Sheet** - so the organiser can personalise and set up the hunt ready for use.

**Team Handout Sheet** - which you can print off for 1 per team. These explain to the teams what they will be doing.

**Organsier Link**- here you can edit certain details of your treasure hunt, such as the end date and time, and the venue location. Most importantly, on this link you can enter in the email address or moible phone number for each team leaders, to forward them their Around the World treasure hunt links, so that they can access them on the day!

**Around the World Table Handouts** - these are the props required for some challenges of the event, and full instructions are provided too so that you have everything that you need.

**Around the World Table Names** - this includes 6 sheets of A4 containing a name, which needs to be printed and placed one per table. If your venue does not have 6 tables, you can always double 2 sheets to one table. For certain challenges included with your activity, teams will need to physically go to certain locations situated on the tables, where they can find the props required for the challenge.

## Whats required...

Each team will need a fully charged device to run the Around the World hunt on, this can be an android device running operating system 4.0 or above and iphone/ipads using iOS 4.3 or greater.

You need at least 3 participants, and we recommend no more than 5, in each team. You can have as many teams as you like.

*Answer the clues, complete the tasks and activities.*

*A real time scoreboard, so you can see how you and all the other teams are doing at any time!*

**Venues to carry out your activity are not included.**

**You will need to arrange this prior to your Around the World treasure hunt.**

**Self Managed Around the World Hunts**  
start at just £9.00 plus VAT per person\*
