

# huntfun gps hunts interactive team-building fun

## Introducing our fully interactive GPS treasure hunts,

Perfect for team building events, a team away day activity, office outing or to stretch your legs after a group conference. A great way to get everybody out in the fresh air for a couple of hours with a healthy dose of good old fashioned competitive fun thrown in for good measure!

### The clever bit!

Written in house, our GPS hunts are available as either Self Managed or Fully Managed Packages. Using GPS technology and the latest smart phones or tablets, the GPS tracker plots your location and moves as you do. Teams will navigate their way to the "gps hotspots", where they can access a range of clues, phototasks, picture clues and hidden mystery clues. The real time score board allows teams to see how they and the other teams are doing at any time, not only are the teams competing against each other, they are competing against the clock too! For some added fun why not include the optional free virtual weapons.

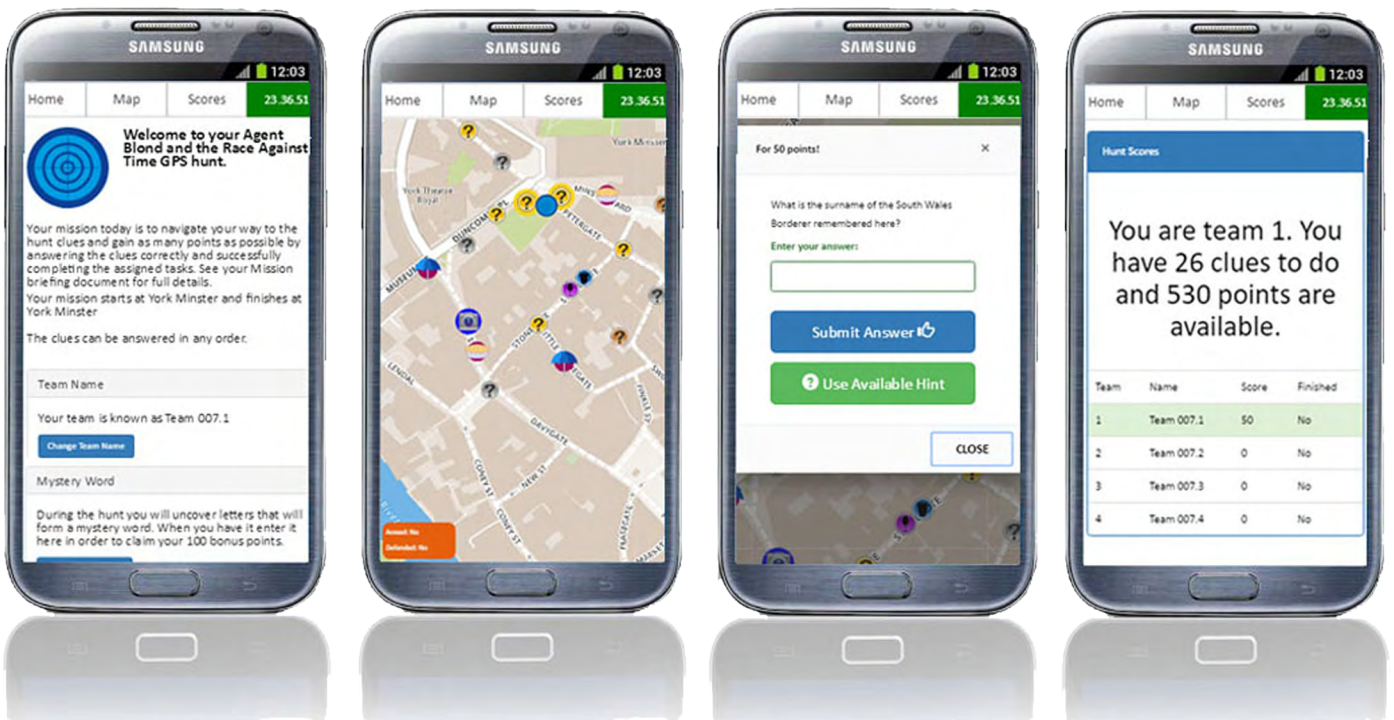

### Choose a theme..

We currently have Spy Mission, Pirate's Ahoy, 80's Retro, Science & Technology, Sports4All, Magic Spells, Hen Party, Stag Party and a range of seasonal themed GPS treasure hunts. Clues and Tasks/Challenges are based on the hunt location and your chosen theme.

Want a theme bespoke to you? Not a problem...give us a call and we can have a chat!

### What it's all about!

The aim of our GPS treasure hunts is to gain as many 'points' as possible in the allocated time. You will earn bonus 'points' for getting to the finish early and penalties will be incurred if you are back late! Strategy and team work are key in planning your route carefully. If you access a hint only half the 'points' available will be awarded! The variety of clue types and tasks will require input from the whole team.

## Fully Managed GPS Packages ... just for you!

We will organise your corporate team building GPS treasure hunt to meet your requirements working alongside anything else you may have planned for the day. We will personalise the hunt to include your chosen start and end venue, and include any optional extras, if required. On the day we will run everything for you ensuring everything goes as smoothly as possible, and most importantly, we leave you free to enjoy the GPS hunt with the rest of your colleagues. Our facilitator will brief you and your teams, explain the scenario of the hunt, set you all off hunting with the pre loaded GPS devices. At the end of the treasure hunt the teams will be welcomed back. Scores are announced and the winning team members will be awarded with our gps certificate's. Altogether the treasure hunt takes around 2 hours to complete plus briefing time. We provide all the equipment needed for the hunt on the day.

### In addition...

Want it all about you! You can send us clues to include as part of the hunt or you could actually write all of your own clues. These could be company specific and/or based on the meeting the delegates have just sat through. They can cover specific team building areas that you want to cover or can be about the employees themselves?? Clues can be as serious or as fun as you like(or a mix of both). We can brand the hunt up with your company name and logo too!

*Themed clues to answer and fun challenges to complete*

*A real time scoreboard, so you can see how you and all the other teams are doing at any time!*

*A live map showing the location of the other teams*

*Optional pub and/or cafe stops  
Optional virtual weapons*
