

huntfun gps hunts interactive fun

Introducing our Self Managed GPS treasure hunts,

Perfect for Groups of Friends, Family Get Togethers, Hen/Stag Parties and Social Events the list is endless. A great way to get everybody out in the fresh air for a couple of hours with a healthy dose of good old fashioned competitive fun thrown in for good measure!

The clever bit!

Written in house, our hunts use GPS technology on smart phones or tablets. The GPS tracker plots your location and moves as you do. Teams will navigate their way to the "gps hotspots" where they can access a range of clues, phototasks, picture clues and hidden mystery clues. The real time score board allows teams to see how they and the other teams are doing at any time, not only are the teams competing against each other, they are competing against the clock too! For some added fun why not include the optional free virtual weapons.

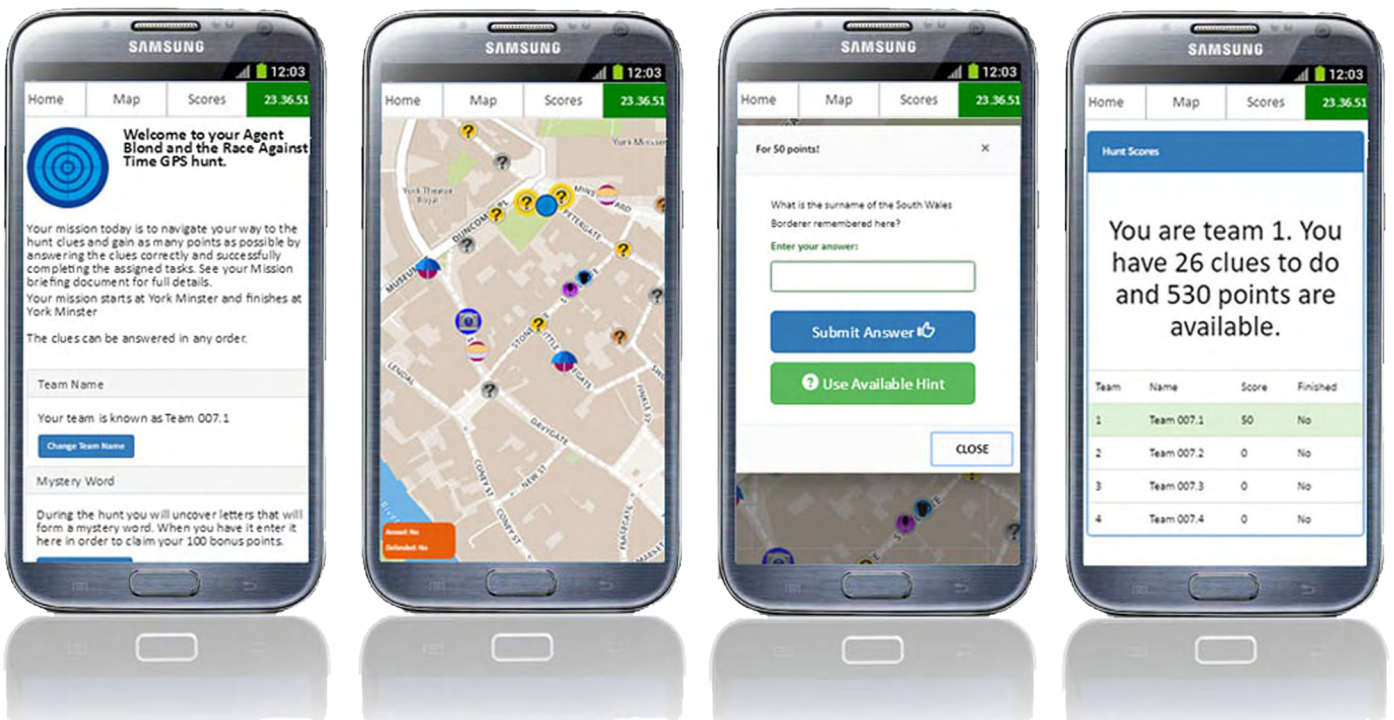

Choose a theme..

We currently have Spy Mission, Pirate's Ahoy, 80's Retro, Science & Technology, Sports4All, Magic Spells, Hen Party, Stag Party and a range of seasonal themed GPS treasure hunts. Clues and Tasks/Challenges are based on the hunt location and your chosen theme. Want a theme bespoke to you? Not a problem...give us a call and we can have a chat!

What it's all about!

The aim of our GPS treasure hunts is to gain as many 'points' as possible in the allocated time. You will earn bonus 'points' for getting to the finish early and penalties will be incurred if you are back late! Strategy and team work are key in planning your route carefully. If you access a hint only half the 'points' available will be awarded! The variety of clue types and tasks will require input from the whole team.

Self Managed GPS Packages...

We send you everything you need to run your GPS treasure hunt which includes a guide (both in video and written format) on how to set up and personalise your hunt ready for use. Plus a handout with instructions as to how to play the game, what each of the icons mean and how points are scored etc.

Each team will need a fully charged device to run the GPS hunt on, this can be an android device running operating system 10 or above and iphone/ipads using iOS 13 or greater, (ipads need to have sim cards in them and be on a phone network) and a printed copy of the 'help' sheet. We recommend no fewer than 3 and no more than 5 in a team.

The GPS hunt is packed full of fun features, live tracking of each of the teams, a live action scoreboard, photo challenges/tasks and our unique virtual weapons system which allows nearby teams to interact and steal points from each other, there's custard pies or pistols to choose from. You could even carry your GPS Hunt in fancy dress costumes to match your theme?

In addition...

Want it all about you? You can send us clues to include as part of the hunt or you could actually write all of your own clues. These could be specific to your group, ie questions relating to future brides/grooms, birthday boy/girl or family/friends. Clues can be as serious or as fun (or a mix of both) as you like! We can also include photo challenges/task as well.

Themed clues to answer and fun challenges to complete

A real time scoreboard and live map showing the scores and locations of the other teams

*Optional pub and/or cafe stops
Optional virtual weapons*

Self Managed GPS Hunts
